2. The revised estimate in question is checked
and corrected to Rs 29,278/-, the reduction being due
to the reduced quantity under blasting as ascertained
through the Commissioner subsequently. It is seen
from

for I
By
25/9/41

EE Nov 25/9

Serial No

from the Municipal Commissioner's letter No A2 211/ 41-42 dated 18/11/1941 that a sum of Rs 733-8-0 has been realised by the sale of 1806 Cyds of boulders that resulted by the blasting operations provided for in the estimate This sum has to be deducted from the amount of the estimate The revised estimate has appropriately to be sanctioned accordingly for Rs (29278 - 733)or28,545/- only

(7) Also it is seen from the same letter of the Commissioner that the total quantity blasted is 3803 Cyds of which, 1990 Cyds has been used on the work for metalling purposes after rebreaking As a result of using the metal got by blasting the boulders, the rate paid is only 0-7-0 against 1-12-0 that was originally sanctioned The entire saving of Rs 2,125/- under item (3) and the sale proceed of Rs 733/- has to be taken into account while judging the excess under blasting Against the lumpsum of Rs 1,000/- originally made for blasting, the actuals work up to Rs 8,557/- The savings referred to above being set off against this item, the actual will be Rs (8557 - 2858)or5,700/-, which exceeds the original provision by Rs 4,700/-

8) It is seen that the levels and contour of the boulders was not originally taken before the work was started This has resulted in a short provision at the outset in the original estimate

Note —Contn sheet

WT 01094—G PB—20 000—22 2-41

The

1524/L

The need for noting levels and estimating quantities initially will have to be emphasised However, as opined by the Sanitary Engineer, the only way of estimating the quantity removed by blasting is by measuring heaps and applying suitable percentage deductions and this having been done in this case as ascertained, the estimate may be sanctioned

Adverting to Government Order No.L.3116-8/Ml.51-39-220 dated 25-10-1940, sanctioning the estimate for Rs.16,800/- for the formation of roads in the newly formed Subedar Chatram Road Extension, I have the honour to state that a revised estimate for Rs.29,666/- was received from the Assistant Engineer for the said work ~~providing for the said work~~ providing for all the deviations as per actual execution. This was placed before the Council at their meeting held on 27-2-1941 and it was referred to a special committee for report. The report of the Special Committee was placed before the Council on the 7th June 1941 and it was first referred to the Managing Committee and then to the Audit Committee. The report of the Audit Committee was placed before the Council at their meeting held on the 16th August 1941 and they have resolved thereat that the entire file of correspondence relating to the subject be submitted to Government for favour of expert scrutiny and opinion, Vide copy of the resolution enclosed. In pursuance of this resolution, the entire records bearing on the subject are herewith submitted for favour of addressing the Chief Engineer of Mysore to furnish his opinion in the matter after getting the estimate scrutinised.

I have the honour to be,
Sir,
Your most obedient servant,

Forwarded with compliments.

Examined by

Copy of the opinion furnished by the Chief Engineer

The revised estimate in question is checked and corrected to Rs 29,278/-, the reduction being due to the reduced quantity under blasting as ascertained through the Commissioner subsequently It is seen from the Municipal Commissioner's letter No A2 211/41-42 dated 18-11-1941 that a sum of Rs.733-8-0 has been realised by the sale of 1806 Cyds of boulders that resulted by the blasting operations provided for in the estimate This sum has to be deducted from the amount of the estimate The revised estimate has appropriately to be sanctioned accordingly for Rs (29278 - 733) or 28,545/- only.

Also, it is seen from the same letter of the Commissioner that the total quantity blasted is 3803 Cyds of which, 1990 Cyds has been used on the work for metalling purposes after rebreaking As a result of using the metal got by blasting the boulders, the rate paid is only 0-7-0 against 1-12-0 that was originally sanctioned The entire saving of Rs 2,125/- under item (3) and the sale proceed of Rs 733/- has to be taken into account while judging the excess under blasting Against the lumpsum of Rs 1,000/- originally made for blasting, the actuals work up to Rs.8,557/- The savings referred to above being set off against this item, the actual will be Rs (8557 - 2858) or 5,700/-, which exceeds the original provision by Rs 4,700/-

It is seen that the levels and contour of the boulders was not originally taken before the work was started. This has resulted in a short provision at the outset in the original estimate The need for noting levels and estimating quantities initially will have to be emphasised However, as opined by the Sanitary Engineer, the only way of estimating the quantity removed by blasting is by measuring heaps and applying suitable percentage deductions and this having been done in this case as ascertained, the estimate may be sanctioned
